THE USE OF SPECIALIZED PHRASEOLOGICAL EXPRESSIONS BY CZECH STUDENTS WITHIN THE PRACTICAL COURSE OF LEARNING RUSSIAN AS A FOREIGN LANGUAGE

ABSTRACT

The present article is devoted to the possibilities of using specialized phraseological expressions in the study of Russian as a foreign language. Such an approach represents a way of expanding students' vocabulary and it also familiarizes them with the realia, traditions, and customs of the country from the point of view of linguoculturology, expanding the concept of linguistic picture of the world, developing the communicative approach in the study of vocabulary and helping to become familiar with the mentality of native speakers.

KEY WORDS *Russian as a foreign language, specialized phraseological expressions, linguoculturology, language culture, methodological recommendations*
